Summary of Committee Actions since the Winter 2021 Plenary

There are multiple areas where we are continuing to focus our energy. Much of our work is impacted by the pandemic. We extensively discussed our experiences and concerns relative to

COVID impact during the fall planning meeting. We decided to move forward this academic year on the following areas:

1. Dedicated Holistic Campus Space Issues – Via SLC Subcommittee, Resolution moving forward Spring 2021. Focus is to have SUNY UFS support to designate, develop, and maintain a dedicated multi-purpose space on campus for private student holistic well-being needs (e.g., spiritual practice, meditation). The resolution also supports developing online meeting space for private student well-being needs.
2. SUNY Old Westbury’s College Senate passed a resolution to change campus use of the word “freshmen” and any related derivatives to “first year student” and other similar language to more accurately describe the diverse student body. Our committee is looking at this now and seems to support it. We are determining how many SUNY campuses have “first year student” wording currently. We also wish to have input from the Student Assembly as to support. SA participation is in flux currently due to pandemic and change in leadership. This matter continues to remain pending.
3. We were considering development of a resolution to mirror an anticipated spring 2021 FCCC resolution on state funding of campus childcare centers. We were exploring bringing this forward as a possible spring 2021 resolution for consideration, if there was an FCCC resolution approved by that body. The timing of the resolution would be made relative to the established state budget process. We had a subcommittee ready to work on this issue should more extensive examination have been needed. Our support of such FCCC Campus and Student Life resolution is not needed as New York State has provided funding for this in the current budget.
Amy Rosen-Brand serves as the UFSSLC liaison to the group.

Additionally, the SLC is actively participating in the following UFS subcommittees:

Pandemic Committee: This committee will examine impacts of the pandemic on campuses, from student life to course delivery, from shared governance to accessibility, from research to communication.

Black Lives Matter Committee:

This committee will consider the ethical, curricular, operational and student implications of Black Lives Matter.

University Police

This committee will review and suggest the appropriate role for University Police. In particular, questions of when the police versus other entities (student services, human resources) might be deployed.

Two UFS SLC committee members serve on each committee.

All subcommittees and ad hoc committees remain active in their work.
